

Temple Emanuel ECDC Program Descriptions 2026-2027

ECDC offers programs for children ages 2 to 6. With small class sizes and low student to teacher ratios, we are able to support the individual needs and development of children. Children play and learn together in a collaborative environment where educators encourage and guide their exploration and discovery. Our Reggio Emilia-inspired approach means that our content is targeted to the interests and wonderings of the learners in the classroom. As the children explore topics of interest, the educators integrate materials and experiences that build social, cognitive, and physical skills. Classroom activities include:

- Self-selected, play-based activities
- Class meetings
- Small group, open-ended exploration and project work
- Snack
- Gross motor activities offered in a variety of outdoor and indoor play spaces
- Art and music programming

Twos
